STUDENT ENROLLMENT &COURSE MANAGEMENT SYSTEM(SECMS)

6. PROJECT TESTING PHASE

FUNCTIONAL & PERFORMANCE TESTING

During the testing phase, screenshots were captured from the Salesforce user interface to verify the proper functioning of all implemented features of the Student Enrollment & Course Management System (SECMS).

The following features were tested:

1. **Student Record Testing**
- Student record creation was tested.
- The proper functioning of student records was verified.

2. **Course Record Testing**
- Course record creation was tested.
- Course information was verified.

3. **Instructor Record Testing**
- Instructor record creation was tested.
- Instructor information was verified.

4. **Enrollment Record Testing**
- Enrollment record creation was tested.
- Enrollment details were checked for proper functioning.

5. **Validation Rule Testing**
- Validation rules were tested for mandatory fields.
- Eligibility conditions were checked.
- Enrollment constraints were verified.

6. **Record Type Testing**
- Record type behavior was tested for different course categories.
- Different enrollment record types were verified.

7. **Flow Testing**

- Automated enrollment approval flows were tested.
- Seat availability checks were verified.
- Flow execution was checked for proper functioning.

8. **Apex Trigger Testing**

- Apex trigger functionality was tested.
- Automatic confirmation was verified.
- Automatic record updates were checked.

9. **Reports and Dashboard Testing**

- Generated reports were tested.
- Accurate data visualization was verified.
- Enrollment tracking was checked.
- Performance monitoring through dashboards was verified

10. **Testing Screenshots**

Screenshots of the Salesforce user interface, reports, and dashboards were captured during testing to provide evidence that the implemented features were functioning correctly.
